

Cegesoft® PFO and SH

Exotic Passionflower oil and Shorea butter

Cegesoft® PFO

- Emollient from the Passionflower seeds – origin South America, Africa, Madagascar
- High content of linoleic fatty acid: approx. 70% omega-6, an essential fatty acid
- Known to reduce transepidermal water loss of the skin
- Pleasant & silky skin feel comparable to evening primrose oil
- Long term skin feel due to low spreading behaviour
- Similar properties as Evening Primrose oil

Fatty acid composition:

palmitic acid	approx. 11%
stearic acid	5%
oleic acid	73%
linoleic acid	7%
behenic acid	1.4%

Cegesoft® SH

- Emollient from the fruit kernel of the Illipe tree, origin: Borneo
- Leaves a silky, non-lubricating, velvet skin feeling
- Melting point some degrees below body temperature 25-35°C
- Improves wet & dry combability of hair from a shampoo
- Improves hair gloss
- High oxidative stability due to high content of saturated fatty acids & low content of mono-unsaturated fatty acids
- Good crystallisation behaviour

Fatty acid composition:

palmitic acid	approx. 16%
stearic acid	46%
oleic acid	35%
linoleic acid	1%
arachidic acid	2%
